Skills

- Languages**
JavaScript, TypeScript, Python, SQL
- Frontend**
React, Next.js, React Native, Tailwind CSS, GSAP, Three.js, Framer Motion
- Backend**
Node.js, Express, tRPC, Hono.js, Drizzle, Prisma, Zod
- Databases**
PostgreSQL, MongoDB, Supabase
- DevOps & Tools**
AWS, Vercel, Docker, Cloudflare, GitHub Actions, Shopify, Figma, Postman

Education

- Ch. Ranbir Singh State Institute of Engineering & Technology**
B.Tech, Computer Science & Engineering (AI & ML)
GPA 8.0 · Jul 2023 – Jul 2027 · Haryana, India

Awards

- Galactic Problem Solver**
NASA Space Apps Challenge, Sep 2023 — recognised globally for innovation and problem-solving.

Profile

Full-stack developer who builds fast, scalable products from scratch and owns the full lifecycle — React and Next.js frontends, Node.js and tRPC backends, and AI feature integration. Since 2023 I have shipped 20+ production applications across e-commerce, education, hospitality, healthcare, and SaaS for Indian businesses and US-based startups, while building and running my own product and services ventures.

Experience

Founder

Jan 2026 – Present

Revonix Labs, Narnaul

- Founded an ed-tech venture delivering robotics, AI, and maker-lab programmes to schools, owning product, delivery, and sales.
- Onboarded one school and pitched eight more, with confirmed interest to onboard from the next academic session.

Network: Connected with 7–8 early-stage US-based startups, including Dash.ai, YouShift, and Poppy.ai, exploring collaboration on product and frontend work.

Founder, VidoCraft & ReviewsBoosted

Sep 2025 – Jan 2026

Digital Marketing & Social Media, Narnaul

- Launched two ventures in video production and reputation growth, serving 10 clients end to end.
- Ran social media management, content production, and review-growth campaigns alongside the software builds.

Software Developer Intern

Aug 2025 – Sep 2025

Fact Industries

- Built and shipped internal software features in a production codebase alongside the engineering team.

Full-Stack Developer

May 2025 – Aug 2025

Reworks Studio, Client Projects

- Delivered four client websites under the studio: Chandni Resort, Pariksha Career Institute, GICE Education, and Baemark.
- Owned design implementation through deployment with Next.js, TypeScript, tRPC, Tailwind CSS, and motion design.

Full-Stack Developer

Jan 2025 – May 2025

RB Health Club

- Built three websites and internal software: the main club website, an internal admin dashboard, and the founder's site.
- Implemented membership and service flows, lead capture, and role-based access on the internal dashboard.

Developer

Sep 2024 – Jan 2025

Happy Laptops & Computers

- Built four web properties: HLC Gaming, Tally (tally.happylaptops), a Shopify storefront, and the company portfolio site.
- Set up the product catalogue, order flows, and storefront experience for a retail electronics business.

Freelance Developer, Graphic Designer & YouTube Manager

Sep 2023 – Sep 2024

Self-Employed, Remote

- Designed and developed websites for schools, handling requirements, build, and deployment independently.
- Produced graphics and brand assets, and managed YouTube channels end to end — editing, thumbnails, publishing, and growth.

Featured Work

Revonix Labs revonixlabs.in Next.js, TypeScript, Tailwind CSS, Framer Motion Ed-tech venture site for school robotics, AI, and maker-lab programmes.	RB Health Club rbhealthclub.com React, Node.js, PostgreSQL, Tailwind CSS, GSAP Gym and fitness club site with an internal dashboard and founder site.
